

• Zoller Single Coil Pickups

SH AZ 48 is the world's most popular jazz guitar pickup. It features a unique "wide" string sampling field that produces a warm jazz tone with precise, clear sound. Iron cores are trimmed to provide balanced string output and clear string definition when playing chords. Coils are fully shielded and vacuum epoxy sealed for reliable, noise-free performance. Attaches to the fingerboard and floats between the body and strings.

SH AZ 49 - same as SH AZ 48 but for ring mounting.

• Winner of "Best Jazz Guitar Pickup"

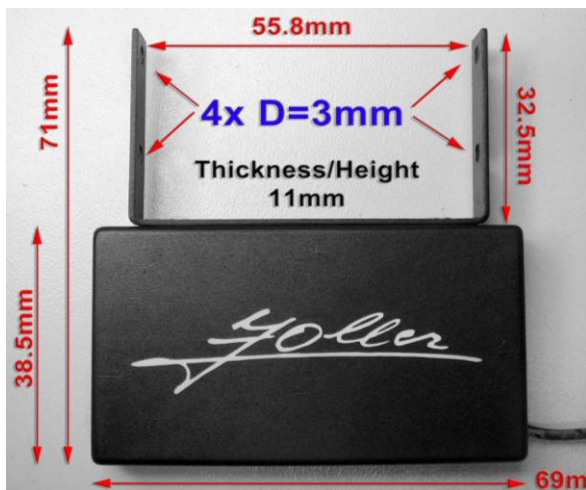

The experts of Bestcovery.com specialize in finding the best products within a given category!

"You don't need to be a rocket scientist" to figure out why the Shadow SH AZ 48 is one of the most popular Jazz pickups. The tone says it all. Behind that legendary tone is an intuitive design that focuses on clarity. To ensure the clearest tone, these pickups are not only properly shielded, but also vacuum epoxy sealed for the best possible performance. While the neck-mounting scheme eliminates many solid-body guitars from possible use, it is more than likely that if you are a serious Jazz guitarist, you are using an arch-top or similar design that allows for this easy installation. What is certain is that if you are a Jazz guitarist who takes their craft seriously, you demand the best in your pickups. Your search is over; the Shadow SH AZ 48 is the best in class."

SHADOW AZ 49

Attila Zoller

"After years of tedious research by trial and error, I finally entrusted my sound to the one who could reproduce it - Shadow's Joe Marinic."
